Practice Policies

Bethany Dwinnell, LISW is a clinical social worker licensed and certified by the State of Ohio. Your first session is designed to provide for problem assessment, crisis intervention (if needed) and the development of an initial treatment plan. Each session typically consists of 45-50 minutes of face-to-face meeting with your therapist.

You are responsible for co-payments or other fees specified for each session. If your insurance company covers part or all of the services, I will bill your company directly. However, if you are required to pay any deductibles or co-payments, you must make these payments at each session. If you make an overpayment I will refund such payments to you.

If your health benefit plan requires prior approval or physician referral for mental health services, **you are required to obtain such approvals/referrals and to present the authorization number at your first visit.**

I have read and agree to the above.

All information that you provide in sessions (with the exceptions below) will not be disclosed outside of this practice without your signed authorization or consent specifying what information is to be sent and to whom.

Exceptions regarding the confidentiality policy include:

1. Reports of suspected physical abuse, sexual abuse, and/or neglect of children which are required by Ohio law to be reported to a county's child protective agency, e.g. Franklin County Children's Services.
2. Reports of suspected abuse of elderly persons which are required by Ohio law to be reported to the Ohio Department of Human Services.
3. Potential harm, danger or threat of death to oneself or another person in which cases, the practice may advise police and/or intended victims and/or those relations (such as parents) in positions of guardianship.

By Ohio Law, minors may only receive services with the written approval of a custodial parent or legal guardian.

I have read and agree to the above.
